REASONS FOR ALLOWANCE

3. The following is an Examiner's Statement of Reasons for Allowance:

suggest all the combined limitations in each amended claim separately. Hamlin ('281), Grawrock ('322) and Olson ('481) are the closest prior art references cited by the Examiner wherein Hamlin discloses translating a received read address to achieve a different boot-up process in response to a host request; particularly Hamlin reference does not teach a mailbox file execute under control of the disk drive, and a disk controller that references the mailbox file to perform a function characterized by contents of the mailbox file. Grawrock ('322) and Olson ('481) fails to overcome the deficiencies of the Hamlin reference wherein they do not teach or suggest a file stored on a disk storage medium of a disk drive which is executable under control of the disk drive to perform a function characterized by contents of the file. In light of the foregoing, claims 1 and 12 of the present application are found to be patentable over the prior arts.

Claims 2-11 and 13-24 further limit the allowable independent claims 1 and 12. These claims are therefore allowable for the same reason as set forth above.

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the

Issue Fee. Such submissions should be clearly labeled
"Comments on Statement of Reasons for Allowance."
